FalconNet Network Setup on Mac

1. Select the Wi-Fi icon on the top-right of your screen. Click on the **FalconNet** Network.

2. Enter your **Concordia email** (or **username** for faculty/staff) as well as **your Portal password** and click **Join.**
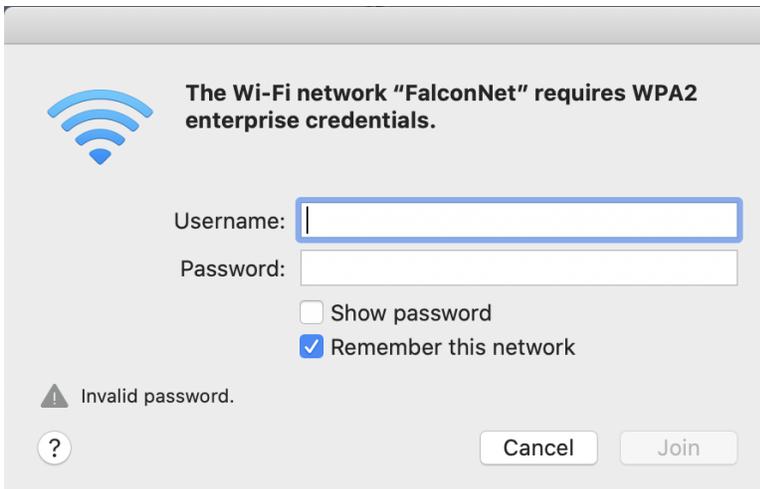

3. If the message below shows up, click **Continue**. If prompted, enter your computer password.

Verify Certificate

Authenticating to network "FalconNet"

Before authenticating to server "wireless.cuw.edu", you should examine the server's certificate to ensure that it is appropriate for this network.

To view the certificate, click 'Show Certificate'.

Show Certificate | Cancel | Continue

4. If it does not let you log in, go back to step 1 and select **Join Other Network.** Enter **FalconNet** as the Network and select **WPA2 Enterprise** as the **Security** type. Enter your **Concordia email** as the username well as your **Portal password**. Click **Join.**

Find and join a Wi-Fi network.

Enter the name and security type of the network you want to join.

Network Name:

Security: WPA/WPA2 Enterprise

Mode: Automatic
