

## FalconNet Network Setup on Windows 10

1. Select the Wi-Fi icon at the bottom-right of your screen. Choose **FalconNet** and click **Connect**.

2. Enter your **Concordia email** (or **username** for faculty/staff) as well as **your Portal password** and click **OK**. If the message below shows up, click **Continue**.

6. Enter **FalconNet** into the Network name, and change Security type to **WPA-2 Enterprise**. Hit **Next** and try connecting to FalconNet a second time.

← Manually connect to a wireless network

Enter information for the wireless network you want to add

Network name: FalconNet

Security type: WPA2-Enterprise

Encryption type: AES

Security Key:   Hide characters

Start this connection automatically

Connect even if the network is not broadcasting

Warning: If you select this option, your computer's privacy might be at risk.
